- Rigging TThugs Characters from our game into the Nifty Metaverse
- Set it up so TTHUG NFT holders can claim the Character Avatars to play inside the game

TTHUGS IN NIFTY ISLAND

- A hub where our community can use for events, hang out, play games between each other
- Represent our community in Nifty Island to introduce new people to our community

TRILLIONAIRE THUGS

A STEP IN THE STUDIO

- We are preparing a trailer showing off some questions and answers from people producing the mobile game of Trillionaire Thugs Zombie World

TRILLIONAIRE THUGS

A STEP IN THE STUDIO

PROGRESS ON THE GAME

Core Gameplay

The core gameplay revolves around fighting hordes of zombies, with survival dependent on the strategic utilization of weapon builds and environmental advantages.

Deadly Arsenal

In the metagame, an extensive array of upgradable weapons and equipment is available to players. Gear plays a crucial role in enhancing the overall strategy and depth.

Tower Defense

The tower defense elements, including a variety of traps, are important in boosting replayability, offering new strategies with each playthrough.

Rogue Like Mechanics

The game meta is significantly enriched by the system that allows players to collect and upgrade gear, enabling them to customize inventory to perfectly suit their unique playing style.

Zombie World was specifically designed with features that have proven success in the market and are loved by players

TRILLIONAIRE THUGS

PROGRESS ON THE GAME

Our game is built for long-term success; its design implies expandable content and modes to keep players engaged.

TT Zombie World is on its last stages for the soft launch with the main features already developed.

For the release of the game, we have planned content and activities linked to Web3.
